

# Paw Print Gazzette

## TREAT AWARENESS BEGINS

### Tricks Not Treats - Halloween No, Nos

- **No Chocolate.** Dogs can be made extremely ill by chocolate. Signs may include hyperactivity and vomiting.
- **Pit bull Awareness Day** October 27th, 2016.
- **National Cat Day** October 29th, 2016.

Welcome to **TLC Pet Hospital**. Keep your pets safe this Halloween. Keep them away from candy and wrappers. Make sure you have a doggie treat just for them.

how to give your  
home-bound patient

## KEEP THE TREATS AWAY FROM DOGGIES

Treats, Wrappers and Especially **CHOCOLATE** need to stay out of dog's reach to help avoid tummy trouble or an emergency visit to the Vet!

## A Safe Distance

To keep dogs and cats out of trouble, keep them away from the front door either by getting them out of the way or even using a baby/doggie gate to keep them away from trick or treaters. It's also a good idea to keep cats inside during Halloween, lest they be caught up in mischief.

## A Quiet Place

If your dog gets anxious around a lot of activity, find a safe quiet place for your pet to be. Soft music and low light can help calm your pet. Make sure they have their toys and blanket.
